Dear Sir, Madam

My name is Simon Thouvenel, I am working for the company " Horizon Abroad ".

The purpose of my company is to provide internships for final year students in every kind of activity (Engineering, Design, Trading, Business Development, Hospitality Industry ...) and that would be **for free**. Indeed, our client is not students but companies which are seeking the "right" student.

We provide internships for several destinations: China, Hong-Kong, Taiwan, Italy, Dubai (soon will be India, France and South of America).

This is why I am contacting you, we received recently some offers from a Thai company which must be appreciated by your students (in attachments). I would like to ask if you were willing to diffuse our offer to your students. Besides, we are receiving currently new offers for other Thai companies. In this way, we can create a partnership between our entities.

I sincerely hope to reach your curiosity, if you would like to contact me I am available every day on my direct line (+33 6 59 11 91 31), by mail or by skype (thouvenel.simon)

Sincerely yours,

Simon Thouvenel
